

Project and Exhibition Launch: Leirim Sculpture Centre

FROM I TO WE

Artist in Residency Project by Susanne Bosch

Interim Reception: Culture Night
Friday 18th September 4-8 pm
Exhibition open until Saturday 3rd October
Leirim Sculpture Centre, Manorhamilton

FROM I TO WE is the exploration of the landscape of human connectedness and collective action of inhabitants of Manorhamilton and surroundings. Bosch takes a strong interest in the resilience of local communities through collective action.

The artist explores the question of recognising interdependence and living together as an art of cohabitation out of conviction but also based on the insight of urgent necessity. 'Meitheal' describes the old Irish tradition where people in rural communities gathered together to help each other. Reciprocity and acting as one team is generating a huge level of camaraderie and friendship.

FROM I TO WE uses formats such as public conversations, collective song writing, tracing public space and a multi-media installation to engage with site and public. It is based on co-creation and recognising significant local talents and expertise as well as ideas and visions. <https://fromitoweproject.wordpress.com/>

Susanne Bosch works internationally predominantly in/with public and on long-term questions, which tackle creative arguments around the ideas of democracy and sustainable futures. Works include issues around money, migration, surviving, work, societal visions and participation models. She develops site- and situation -specific interventions, installations, video, drawing, audio as well as dialogical formats.

Exhibition supported by the Arts Council of Ireland and Leitrim County Council.
